

I object to the Sinclair stations broadcasting the "documentary" Stolen Honor. This is a biased film that is not "news." It's only purpose is to influence the election.

By broadcasting this program, Sinclair is using its access to public airwaves in effect to make an "in kind" campaign donation.

I think that it is in clear violation of Sinclair's obligation to use the public airways in the public interest. The license renewal process should include public input about how each local station handles their responsibility to the public. Renewal should not be granted to companies like Sinclair who misuse their license.

Thank you.
